

Nature Kollektion

The new Lifestyle-Trend, up to date fashion, sustainable, from reliable resources, recycled and eco-friendly. creativity for nature, a collection which connects the fashion demand with the environment.

Solely certified qualities and non hazardous fabrics are being used. The gentle, extreme and energy saving production of the printed fabrics is going to satisfy the new consumer, the trend of the society, to buy consciously sustainable fashion without any restrictions.

Let us thrill you.

The certified factory is obliged to keep complete records for each flow of goods, for this, so called transaction certificates (T/C's) will be issued.

Those T/C's need to be issued to our clients as well and need to accompany the shipments.

Please note that in order to promote the reward of each individual standards, the complete chain supply needs to be certified to the last sale of the last B2B transaction (the last B2B buyer, who sells to B2C does not need to be certified).
